Additional information	- If in the future, either European Union or Hungarian law(s) impose mandatory storage for Member States and/or system users and in connection therewith a "use it or lose it" system is introduced, the Tendering Party will apply it to the capacities sold in the relevant Auction in accordance with the regulations in force at the time. - The contracting parties will immediately incorporate the above changes in their respective gas storage contracts as contract amendments. The contracting parties will be obliged to cooperate in order to amend the natural gas storage contract. - You have read and accepted the terms and conditions of the individual model contract for the storage of natural gas attached to this Announcement for Auction. You will not resell, directly or indirectly, the storage capacity awarded in the Auction in secondary capacity trading or otherwise transfer in any manner or by any title any unused storage capacity awarded in the Auction to a third party that is subject to a sanction under a natural gas storage contract concluded for the purpose of booking the storage capacity awarded in the Auction, and therefore any transfer of the booked capacity under any title would result in a violation of the sanction. For the purposes of this Announcement for Auction, a sanction will be understood as a financial or property restrictive measure, economic or trade restriction or embargo imposed or enforced by the United Nations Security Council, the European Union, the United States Department of the Treasury, the United States Office of Foreign Assets

	Control (OFAC), the United States Department of State, the United States Department of Commerce (Bureau of Industry and Security), the competent authority of the United Kingdom or any other relevant sanctioning authority.
